

## Claude Lewis Elected President

### Special Meetings Begin Wednesday

Special meetings with Mr. Moses Menzshall will begin Wednesday, March 3, and extend through Sunday, March 14, with meetings at the chapel hour every day at school and evening services at the Friend's church.

Mr. Mendenhall comes to us having been formerly pastor of the East Whittier Meeting and superintendent of the Iowa Yearly Meeting.

Out of four candidates for this series of meetings Mr. Mendenhall was unanimously chosen because of his qualifications and availability. He has held meetings at the Friend's University in Kansas and worked successfully with young people's groups in various other places.

### Social Science And A Better World; Prof. Macy

The business of living is largely a matter of adjustment to environment—the physical and social environment. The pure and applied physical sciences, and the resultant techniques in industry and commerce, have advanced so far today that adjustment to the physical environment takes much less of our time and energy and is vastly more successful than in the earlier stages of the race.

But the problem of getting along with each other seems to be still as big as ever. Men in times past had to get along with each other and work together in order to cope with a hard physical world and force a livelihood therefrom. Now the major problem is social adjustment. The improved physical techniques even become at times a hindrance to social adjustment as they are turned against men instead of getting nature for the sake of man, and as they encourage greed and power which make tools of other men.

If the social sciences have been slower to develop than the physical sciences, they are rapidly coming into their own, so that even now we know how social adjustments can be made and maladjustments remedied. We know much about domestic relations, race relations and international relations, and how good they may be. But we are slow to take up with these social techniques. A better engine comes rapidly into use, but we have more divorces, greater race hatreds, and worse wars.

Something beside social knowledge about how to get along with other folks is evidently needed. What is needed is a moral motivation for putting into practice this advanced social knowledge.

### News Briefs

Bill March, Berkley, Calif., transferred from Reed college in Portland to Pacific in order to enroll in the Reconstruction courses offered. Bill, a freshman, began school today. He is living in Hoover hall.

Another student is added to the list of new students coming to Pacific this term for the Reconstruction course by the registration of Ward Miles, a junior coming here from Willanette U. in Salem. Ward registered last week and began classes today.

Melvin Ashwill is ordered to report for active service in the Air Corps within a week or so. He is a junior and is now in the Air Corps reserve.

President Gulley and Prof. Edward Harmon left for Idaho on business of the college. They will speak to the various Friends meetings in Boise valley.

Bruin Jr., what was left of him was given to the sophomore class by decision of the Student Council, Tuesday. The pieces held by the classes after the fray last Friday were measured by Prof. Weesner. A cessation of hostilities was ordered for the purpose of measuring the remains of the old bear and to allow the construction of a new, more durable bear.

From Washington D. C. comes Prof. Randolph Hutchins to replace Prof. Jones, who resigned to assume a position in Reed college. Mr. Hutchins worked with Pres. Gulley in Spain in Reconstruction and Feeding during the Spanish Civil War. He is expected to be here to begin classes March 8.

### Beautiful Texas

Cpl. Burl W. Kirkpatrick  
Camp Wallace, Texas

"The eyes of Texas are upon you all the live-long day."

The first line of one of the Texas state songs is one of the truest words ever spoken by man. It is not necessarily the physical eyes but the verbal I's are the things that count down here. One doesn't have to be in the Lone Star State very long before this becomes evident. They don't mean any personal glory but it is the glory of Texas they are talking of.

### Old Pulpit Contest Won By Arthur Roberts

For the fifteenth time in the history of Pacific college the Old Pulpit Extemporaneous Contest was presented. During the chapel hour on Tuesday, Feb. 23, George Bales, Forensics Manager of the the student body directed the contest telling briefly the history of the contest and introducing the speakers. The students and faculty originated the contest in 1917, and those take part have the privilege of speaking behind the first pulpit ever used in Newberg.

The four students giving five-minute extemporaneous speeches this year were Arthur Roberts, Charlotte Macy, Kenneth Fowler, and Elenita Mardock. After long deliberation the judges, Mr. Gulley, Mr. Lewis, and Mr. Allan announced Arthur Roberts as the winner of the contest. His name will be engraved on a tablet with the names of previous winners of the contest.

### Popcorn Banquet Given By Pres. Candidates

The erstwhile, quiet, politics livened up a little bit in the last few days of the campaign period, beginning with a Popcorn Banquet given Thursday night by the two presidential candidates and continuing in Student body meeting Friday when students listened to campaign speeches of Lewis and Roberts.

The banquet consisted of talks by toastmaster Jack Willcuts, Jim Spirup, Wilma Archambeau, Laura Shook, Charlotte Macy and the candidates, Lewis and Roberts.

The affair was carried out in a ludicrous fashion and the menu consisted of Party-Pak and cookies. The corn was featured in the program.

### Defeats Roberts In Finals

Maybe you would like to know a few statistics about our new student body officers. The new president is:

Claude Lewis, a junior from Newberg, is in the reconstruction unit. He has been chief treasurer of the student body for two years as well as for the YMCA. He was vice president of the Gold P last year. He is an outstanding member of the basketball squad and a member of the committee on student-faculty cooperation.

Our new vice president is:

David Thomas, a junior from Sherwood, majoring in religion.

The new secretary is:

Florence Swanson, a junior from Portland and her major is English.

The new treasurer is:

Jack Willcuts, who is majoring in religion and is a junior.

The Crescent editor is:

Betty Ashwill, English major and a junior from Newberg.

The L'Ami editor is:

Deane Roberts, a sophomore from Greenleaf.

This election is not the one and only. There are still important offices open in the student body that must be filled. Monday the student council will meet to nominate two candidates for the minor offices. At the next student body meeting two more candidates will be nominated for each office. The four names will be placed on the ballot to be voted upon March 15. After the election at the following student body meeting all the new officers will be installed in an impressive ceremony.

### YW Girls Honor Dads At Formal Banquet

The YWCA girls honored their fathers Friday evening, Feb. 19, at a three course banquet held at the Friends church.

The colorful decorations followed the theme of Washington's birthday.

The girls whose fathers could not be present invited other gentlemen. Among these were Levi Pennington, Dorwin Smith, W. Jeffrey, Mr. Knapper, Mr. Parrish, John Meynink, Rev. Cunningham, Profs. Macy and Allen.

Mr. Lewis as toastmaster introduced the following program: Fun by Charlotte Macy.

A-mmunition by Elenita Mardock.

T-une by Lucien Jones and Geo. Bales, accompanied by Betty Nixon.

H-earty by Levi Pennington.

E-ternal by Rev. Clark Smith.

R-efrain by the girls' quartet consisting of Evangelina, Kath-

## Clean Up Day

Now that Spring has sprung, at least temporarily, it is a good time for a Clean Up Day. Our campus can be made to look very beautiful if we try. The baseball enthusiasts are ready to snatch at an opportunity to put in a day on the baseball diamond, fixing the backstop and the field and everyone would love to be out on a sunny day raking leaves or cleaning windows. It might be a good idea to have a softball game or some games in the afternoon after working. Let's talk this up and see what we can get done.

## These Things First

Beginning in the middle of this week, and extending on throughout next week, Moses Mendenhall of Los Angeles is to lead in our Revival series. This man is a capable leader and will do his part in a successful manner as a humble man of God; nevertheless the success of this series lies with us. With us. With material things crumbling about us it is a challenge for us to check up on our lives to see if faith and trust in God is uppermost and that we are building our lives on the solid foundation of Jesus Christ.

Let us pray much for these meetings and add works to our faith by attendance and invitation to others.

## Y. M. C. A.

President Gulley gave an inspiring talk Wednesday on the Spiritual Foundations for Reconstruction Work. Contrasting the way some people go to extremes in the matter of social service to the two-fold principle of faith and works, President Gulley urged that we look to the right balance between the two principles. "Humanitarianism should be an outgrowth of a deep, inner compulsion of love that supercedes any command," declared Pres. Gulley.

"Faith of Friends," he continued, "is of such a nature that it translates itself into services of love. The way to serve God is by serving human beings. Service is faith in action; faith must come first—it is tragedy to serve without that—and if we are to do effective Social Service we must do it because we feel the weight of the cross."

## STUDENT-FACULTY COMMITTEE REPORTS

The committee on Student-Faculty cooperation met Wednesday noon to discuss the problem of whether to have a spring vacation. A recent student body meeting had referred the committee for discussion of the problem. No definite decision was made but a further discussion was planned to be held at a meeting early this

## Trefian

Last Wednesday at 4 P. M. the Trefian club had its semester tea in the parlor of Canyon hall to honor its new officers. President, Betty Ashwill, welcomed the guests and Joyce Perisho and Evangeline Marx sang. Miss Sutton gave a short talk on the history of the club, which has existed almost thirty years.

Mrs. Cole and Miss Sutton poured and Charlotte Macy was in charge.

The new officers are: Betty Ashwill, president; Florence Swanson, vice president; Louella Harris, secretary; Ardys Gossard, treasurer; Charlotte Macy, social chairman; Miss Sutton, faculty advisor; Mary Frances Nordyke, critic; Ruth Vasey, marshal and Wilma Archambeau, reporter.

A report was made by Mr. Skene on what was being done with the nut money. Plans are being made to revamp the foot rail of the chapel stage. As soon as a method and man, or men, can be found, the gym roof will be repaired. A school woodworking shop is in the making. A lathe has been bought. A third or half horsepower engine is now

## Chapels

President Gulley arrived home from a four thousand mile trip on Monday, Feb. 15, and the next he gave an interesting account of his trip in chapel. Representatives from all the other Friends colleges but one were represented at the gathering in Chicago in the interest of the government program for the training of reconstruction workers. Mr. Gulley announced that as a result of his trip Pacific college was given its place on the map and is to be officially designated by the government, with other colleges, as a center for the training of reconstruction workers.

Reconstruction is not simply a thing to be looked forward to after the war, but is going on now. Four reconstruction workers are now in Africa distributing several thousand tons of food. Others are located in various other countries and more should be sent as needy countries can be opened to them. The reconstruction problem following this war is going to be five to ten times as great as it was following the last war.

Mr. Gulley said that any one contemplating traveling for pleasure these days should stay at home. Traveling conditions are not conducive to pleasure seeking. Mr. Gulley expressed his pleasure in getting back to the green trees and free adventurous spirit of Oregon.

At a very entertaining chapel Monday, Feb. 15, Mr. Philo Eddy delighted the student body by whistling several musical numbers among which were "Minuet in G," "Whispering Hope," and "Jesus Keep Me Near the Cross." Mr. Eddy whistled two tones much of the time; he was accompanied at the piano by Mrs. Eddy.

Mr. Eddy gave imitations of a small boy learning to whistle, a train coming into town, a robin, quail, mourning dove, cardinal, whippoorwill. He also gave a demonstration of how a meadow lark should sing "Springtime in the Rockies" if it could learn the tune. He closed his concert with a rendition of "Listen to the Mocking Bird."

During the chapel hour Monday, Feb. 22 the student body enjoyed what is coming to be an annual event much appreciated. Dr. Homer Hester entertained the group with his recordings. He had made a recording of the opening hymn and announcements which included a great student body laugh. He continued with parts of records of KOAC broadcasts.

We heard parts of a recent wedding ceremony and then Dr. Hester concluded his program by playing by request a quartet in which he sang all four parts, accomplishing this by recording each part in turn on the same record.

I bet that you  
Thought that this  
Was a poem  
But we did it to fool you.

**EDMUND LOWE** ONCE SET A RECORD FOR THE MILE-RUN AT SANTA CLARA U THAT STOOD FOR EIGHT YEARS!

### Dear Cousin Mouse

Good gossip, like all things, has its appropriate time and place. And that may be the girls' dorm any time between 6:30 A. M. and midnight. With Marv's as a source of information, hen sessions could be endless. Not that the girls enjoy picking you apart, but some one must solve the little problems that arise in everyday life (and on the campus.)

Rumors have it that Michener, that man with the arrow tie, going to change his technique. He was heard to say, after a Saturday night of wolfing, "That's the first time I've ever had my face slapped."

Saturday night must have been eventful for others too, especially Wayne, who took up sleep-walking that night. Flossy Hadlock also had escapades. She has been having Hallucinations since then.

It appears that the Gold K has taken a few feminine members into the club. Also the Trefian society and the Gold Q have added men to their ranks.

Vanna reports: "Idaho does a wonderful job of camouflaging the moon and at such convenient times."

Don: "Do you love me Sally?"

Marge: "My name isn't Sally."

Don: "Oh, isn't this Wednesday night?"

We're under the impression that the Morris Jewelry shop should give the college cut rates on its stones. With the business done in '42, why not?

Willcuts, among others, has discovered the possibilities in the Freshmen class and the same can be said of Cahney and the Junior class.

Television could do wonders for this column. For instance, a reproduction of Deane and Viola playing marbles on the front walk Wayne and two girls on the sofa, Bruin Jr. and members of the classes strewn all over one of the blocks on Meridian, the back row in Soc. Prob., 10:30 on the dorm steps, Leo and Carroll spending an afternoon or evening in Portland, or six girls in pajamas trying to miss the front door on the

So Bill Stein is a philosophy major? Well it sounded good for the Echo's scandal column—and Wanda.

Notice: especially boys, Doris is onw free again, any and all evenings.

Pd. Adv.

### Dear Brother Rat

There have been many signs of spring around the campus this last week. The beautiful weather has helped us to realize that period between winter and summer is just around the corner. The urge to throw the baseball on the campus lawns has come to such men as Michener, Crisman, Nelson, Spirup, Miller and a host of others.

It was interesting to listen to Jim S. tell Betty Ann just how the squeeze play works, but when it came to a demonstration he didn't use baseball equipment.

We were all glad to see C. Michener with his tractor working on the baseball diamond the other day, but he hasn't explained to us why he was up so late, or up so early.

Lucien Jones was taking what should turn out to be some interesting pictures the other day. We wish you luck Mr. Jones.

They may ration gas, shoes, sugar, and now food, but they can never ration what a man thinks about this time of year.

Jim Greer was seen taking his girl friend for a ride in the college swing the other day, and having a good time doing it.

Badminton seems to have secured a good home in P. C. It was quite a sight to watch Mildred, Florence H., Loren Smith, Barbara M. and Jimmy Webb playing this sport on the lawn the other night before supper.

We all enjoyed seeing Jimmy Anderson the other night in a return visit from Toledo, but nobody enjoyed more than B. Bates.

### Better World

(Continued from page one) those of men who knew much less. They repeated experience of

### Civil Service Offers Wide Field to Students

College graduates, especially women, are being sought for wartime jobs with the Federal government. Through the new Junior Professional assistant examination, announced today by the United States Civil Service commission, graduates from recognized colleges with major study in any field may be eligible for employment.

An unprecedented step for Junior Professional Assistant examinations, no time limit is set on receipt of applications by the Commission, and examinations will be held periodically when a sufficient number of applications have been filed. College seniors may apply when they are a semester or two quarters from expected graduation. Since seniors who pass the test may receive provisional appointments before they graduate, students are urged to apply early, in order to be considered for vacancies that occur.

An added incentive is the increase in salaries. With a standard Federal work week of 48 hours (which includes 8 hours of overtime), the present rate of compensation for overtime increases salaries for these positions about 21 per cent.

No options are specified, although applicants are particularly desired with training in public administration, business administration, economics, economic geography, library science, history, public welfare, statistics, mathematics agriculture. Eligibles in these fields will be appointed to positions paying \$1,800 to \$2,000 a year plus overtime, mostly the latter.

Those with majors in English, modern languages, music education, etc., are in limited demand, but will be considered for clerical positions paying \$1,620 and \$1,800 a year plus overtime.

For positions in chemistry, engineering, geology, metallurgy, meteorology, physics and soil conservation, persons with appropriate study should apply under the announcements for junior grade positions in those fields (\$2,000 a year plus overtime). No written test is required for these last-named positions.

There are no age limits. Appointments will be for the duration of the war and for no more than six months beyond the end of the war.

Consult Pres. Gulley for full information. Announcements and application forms may also be obtained at first and second-class postoffices, at regional offices in regional headquarters' cities, and from the Commission's Washington-office. It is important that a list of all college courses completed or to be completed be filed with the application form. Applications should be mailed to the U. S. Civil Service Commission, Washington, D. C.

Men and women are sought to fill positions as technical and sci-

(continued on page four)

is that we learn little from history. But the past is about all there is to this human world. There is no such thing as the future—not yet, and the past comes down to the moment the future begins. What we call the present is made up of a few elements from the immediate past and some plans for the future. It would seem that having such a rich and well known past experience, and present knowledge, we could select enough elements for

## NCC Edges Out PC In Hard Fought Game

The hard fighting Quaker quintet went down to a 33 to 29 defeat at the hands of the fast-coming N. C. C. team. Humphreys, N. C. C. center led the winning team with 16 points, while Thomas, veteran Quaker forward, led the losers with 12 points. The Quakers led the boys from Eugene at half time 19-13 but a bad defense and loss of shooting accuracy let the southerners win.

Score:  
NCC (33) (39) Pacific

Warner (2) - F (12) Thomas

Substitutions: NCC, Warner 2, Stone (1); Pacific, Michener, Herrick.

Referee, Jack Willcuts.

## Civil Service

Continued from page two) entific aid in the Federal Government. They are needed to do research and testing in the following fields: chemistry, geology, geophysics, mathematics, metallurgy, meteorology, physics, and radio. The positions pay \$1,620 to \$2,600, plus overtime.

Applicants may qualify through experience or education. For the assistant grade, applications will be accepted from persons who have completed 1 year of paid experience or a war training course approved by the U. S. office of education. One year of college study, including 1 course in the option applied for, is also qualifying. Persons now enrolled in war training or college courses may apply, subject to completion of the course. For the higher grades successively greater amounts of education or experience are required.

The majority of positions are in Washington, D. C., but some will be filled in other parts of the United States. There are no age limits, and no written test is required. Applications and complete information may be obtained from first and second class post offices, from civil service regional offices, and from the commission in Washington, D. C. Applications will be accepted at the U. S. Civil Service Commission, Washington, D. C., until the needs at the service have been met.

Trainee positions in technical and scientific work will be filled in Washington, D. C., and vicinity. The salary is \$1,440 a year plus overtime, and the only educational requirement is that the applicant must have completed one high school credit of physics, chemistry, mathematics, biology, or general science. There are no options.

Persons using their highest skills in war work are not encouraged to apply. War Manpower restrictions on Federal appointments are given in Form 3989, posted in first and second-class post offices.

Some folks think that fleas are black, but I don't think so, cus Mary had a little lamb with fleas as white as snow.

## Sport Gossip

With basketball nearly a thing of the past, we center our minds and thoughts on the spring athletic program. The program will be a hard one, indeed, to work out, because of the gas rationing, which hinders transportation facilities and the drafting of men out of our college teams. Baseball will be our main athletic affair of the spring program, with tennis and archery doing their bit for the college welfare.

Baseball will swing into action in the near future with all men interested being out for the initial practice. We should have an excellent team this year with nine lettermen back. Let everyone who turns out get there every night, if possible, and work as hard as we can to promote a winning team for old Pacific. Football and basketball scores were nearly all losses; let's have for baseball all wins or any way have a percentage of .500 per cent. We will probably play teams like O. C. E. of Monmouth, Reed or Portland, Clark Junior college of Vancouver and also we might play Linfield college of McMinnville.

Everybody who knew our baseball coach last year, Mr. McGrath, will be greatly disappointed that he cannot come and coach us again because of other work of importance. Wish you were here to coach us Mac. Some of the fellows are trying to get Mr. Parrish of the College Pharmacy to coach and if he can be acquired he will be a great help to the team and college.

Others have spoken of having a student coach, but I for one

## Beautiful Texas

(Continued from page one) ual weather at the moment, but you will really love it after being here a while.

I imagine that you all have heard that the Texas women are the most beautiful in the world. I guess the reason for this is that there is more of her to be pretty. Texas grows big women. There is one thing about it however, if any of you Nawthern boys would like a loyal friend this is the spot to find her. The idea of not speaking to strange men is a lot of baloney, but to HER man she's as loyal as the day is long.

If you haven't spent a winter in Texas you haven't lived. There is no greater story told than of the blue-northerners. According to scientists they are a breed of cyclonic gales that are forced down out of the Rockies by high pressure areas. According to Texans however, they come straight from the North Pole with nothing but barbed wire to slow them down. The season for these winds is from October to March. If you see the blue-blackest cloud imaginable, and smell hurrying fresh air—look out, because before you can put a coat on the thermometer it will have dropped almost out of sight. There is a yarn down here about the team of horses that were out in the field when one of these storms hit and one horse froze to death while the other fell over with the heat, and this is truer than it sounds, if you have ever been down here in the winter.

A description of the speech down here would put to shame some of the expressions heard

wouldn't like to have a student coach. The reason for this is that a student coach can't have the power and command like a man outside of the student body could have. A coach must first understand the game well, second understand the fellows that are playing under him, third have power and command and yet be cheerful and joking at times, and fourth be a man that the fellows are proud of, because they will work harder for such an one.

## Good Work Mr. Jones

Mr. Jones our former athletic director should be complimented for the work he has done even though the record of games won and lost are against him. We have a small student body and too few fellows to get a good team, but what we had was nothing to be ashamed of for the size of the college we have. We had "quality but not quantity"—and that is what counts.

Another thing of great importance is the improvement of the athletic field. Before I make any suggestions for improvements, I'm sure that the student body of the college expresses thanks to Carroll Michener for the work he has done on the baseball diamond in getting it in shape for play. Some suggestions for the improvement of the field are as follows: first keep the field in the best shape possible by cutting the outer grass on the diamond, pick up all papers and rubbish which give untidy appearance. Second, altho perhaps impossible at this time, I suggest that we see what we can do to build a grandstand. Third, have a new backstop put up. The most important thing of all is to have the cooperation of students who use the field.

will become accustomed to it before being carried out of the state. Ovah yondah may mean only a few steps or 1,000 miles to a native. Evenin' is anytime after the noon meal till night time which is about 11. The Texas drawl is the most amazing thing about their speech; it has to be heard to be appreciated.

Texas is truly a big state. Most and biggest are the two most overworked words in the native language.

Anyone that ever comes down here will get a touch of Texas in their heart, but as for me take me back to the northwest.
